ANNUAL REPORT (submitted AY2019 - 20)

NAME OF PROGRAM: MA CMHC – Online Campus TYPE OF REPORT: *Program Review* DATE: 11.25.20

SECTION 1: Learning Outcome Section

Instructions: Section 1 involves reporting your outcome data from the previous academic year (2019-20). Please add your PLOs below and ascertain that they correspond to the AY2020-21 Catalog. Please use standard **black** font when completing your own

| INSTITUTIONAL LEARNING OUTCOMES (ILOs) | PROFESSIONAL PRACTICE Graduates will be able to demonstrate attainment in the areas of competency (as reflected in knowledge, skills and attitudes) required by their area of education and training. Examples include evaluation, intervention, consultation, teaching, and supervision. | DIVERSITY Graduates will respect the value and dignity of individuals and groups across all cultural contexts, and advocate for inclusion and equity. They will demonstrate intercultural competence in domestic and international contexts with people who have ideas, beliefs, worldviews, experiences, and behaviors that are different from their own. | PROFESSIONAL BEHAVIOR Graduates will be able to demonstrate by their values, beliefs and behaviors adherence to the highest ethical and professional standards in their personal and professional lives. | SCHOLARSHIP: Graduates will be able to integrate scientific research and theory, as broadly defined, to enhance their professional and scholarly endeavors. |
|---|---|--|--|---|
| PROGRAM LEARNING OUTCOMES (PLOs) | PLO 3: Counseling, Prevention, and Intervention: Graduates will demonstrate the knowledge, skills, and practices of culturally appropriate diagnosis, treatment, referral, and prevention of mental and emotional disorders. PLO 4: Assessment: Graduates will demonstrate the knowledge, skills, and practices of culturally appropriate and holistic clinical evaluation and assessment of normalcy and psychopathology. | PLO 1: Diversity and Advocacy: Graduates will demonstrate the knowledge, skills, and practices to deliver culturally appropriate counseling services, advocate for clients, and understand how to influence policy to enhance the practice of clinical mental health counseling. | PLO 2: Foundations: Graduates will show a commitment to their identity as counselors through membership and activities in professional organizations, and through ethical behavior in their work with clients and other professionals. | PLO 6: Research and Evaluation: Graduates wil competently and critically evaluate clinical mental health counseling research demonstrate understanding of evidence-based treatments and outcome evaluation, and apply appropriate models of program evaluation. |

| PLO 5: Diagnosis: Graduates will | | |
|---|---|--|
| demonstrate the knowledge, skills, | | |
| and practices of culturally appropriate | | |
| diagnosis of both psychopathology and | 1 | |
| normal developmental challenges, | | |
| including appropriate use of diagnosis | | |
| during trauma-causing events. | | |

PLO DATA SUMMARY

| AY 2019-20) b | Assessment Methods and Expected Outcomes Describe methods used and Denchmarks expected for each PLO. See you're a-Plan for detail) | Data Reviewed and Findings (Provide a description of the data reviewed and a summary of the findings. Describe the process for evaluating/ analyzing the findings) | Planned Action Steps (Describe implemented or planned actions based on findings; i.e., include actions that should be started, stopped, or continued. Include budget implications, if any) | Update on Planned Actions This column is left blank the year you submit this annual report. Provide AN UPDATE the next academic year (by 12/15/2021). |
|------------------------|---|---|--|---|
| Diversity and Advocacy | Formative Measures: Student grades (GPA) Dispositions, Skills, and Knowledge Competency Assessment (DSKCA) collected across three developmental stages (average benchmark scores required on DSKCA) Basic – CM592 (1) and CM528 (1.5) Intermediate – CM543 (2), CM550 (2), CM564 (2) Advanced – CM605 (2.5), CM614 (3), CM619 (3.5) CM800/CPCE - within one standard deviation of national mean Dispositions (1 – first year, 2 second year, and 3 third year): Social and Cultural Diversity, Cultural Self-Awareness, and Culturally relevant service delivery. Summative Measures: Capstone Exam – Social and Cultural Diversity | Data reviewed: For PLO 1, the CMHC team evaluated the DSKCA data and the GPAs for courses that included PLO 1 content from Fall 1 2019 through Summer 2 2020. In addition, The Student Experience Lead and Chair evaluated the exit surveys for all students who graduated in the academic year. The Director of Clinical Training evaluated site supervisor and student surveys related to fieldwork. Data Finding PLO 1.1: Overall, students' progress on PLO 1 as expected. At the Basic Assessment level, students had a mean average score of 2.65 on the DSKCA, which exceeds the required benchmark score. Data Finding PLO 1.2: Overall, students' progress on PLO 1 as expected. At the Intermediate Assessment level, students had a mean average score of 3.43 on the DSKCA, which exceeds the required benchmark score. Data Finding PLO 1.3: Overall, students' progress on PLO 1 as expected. At the Advanced Assessment level, students had a mean average score of 3.27 on the DSKCA, which exceeds the required benchmark score. Note, PLO 1.3 is | PLO 1.1 Goal: Revise the assessment tool to more accurately capture student growth across developmental benchmarks and to more closely align with CACREP Key Performance Indicators and Course Learning Outcomes. Revised tool will be built and reported in Canvas Outcomes. PLO 1.2 Goal: Execute the Racial Trauma and Trust the Process Groups for students in alternating months. PLO 1.3: Secure student group status for Brave Spaces for Diverse Students with TCSPP and AMCD. | |

| reflective on students in fieldwork. Significant factors including Argosy transfer students and COVID-19 account for score fluctuation. Many of the students completing the program during the 2019-2020 academic year were impacted by the CoVID-19 pandemic, beginning Spring 2020, resulted in substantial changes to testing procedures for the required comprehensive exit exam. To meet student needs, we created an equivalent comprehensive examination that evaluated student knowledge on each of the CACREP eight required domains and our program learning outcomes (PLO-S). If a student did not pass the examination on the first attempt, they completed an oral examination. Students who do not successfully complete the comprehensive exam at the second cycle will not graduate and will be placed on an SDP. All students have passed the alternative exam since inception with three students requiring an oral exam. Since inception of the alternative comprehensive exam since inception of the alternative comprehensive exam since inception of the alternative comprehensive exam since inception of the students who took the Counselor Preparation Comprehensive Exam (CPCE), had a passage rate of 82% (n=33), with | |

- of 2.47 on the DSKCA, which exceeds the required benchmark score.
- Data Finding PLO 4.3: Overall, students' progress on PLO 4 as expected. At the Advanced Assessment level, students had a mean average score of 2.79 on the DSKCA, which slightly below required benchmark score. Note, PLO 4.3 is reflective on students in fieldwork. Significant factors including Argosy transfer students and COVID-19 account for score fluctuation.
- Many of the students completing the program during the 2019-2020 academic year were impacted by the CoViD-19 pandemic, beginning Spring 2020, resulted in substantial changes to testing procedures for the required comprehensive exit exam. To meet student needs, we created an equivalent comprehensive examination that evaluated student knowledge on each of the CACREP eight required domains and our program learning outcomes (PLOs). If a student did not pass the examination on the first attempt, they completed an oral examination. Students who do not successfully complete the comprehensive exam at the second cycle will not graduate and will be placed on an SDP. All students have passed the alternative exam since inception with three students requiring an oral exam. Since inception of the alternative comprehensive exam 100% of the students have passed the exam with a total of three (3) retakes requiring oral administration.

QUANTITATIVE ANALYSIS OF PLO FINDINGS for digital data collection users and others (Canvas Outcomes, Tevera/APP database, etc.)

Instructions: Please complete EITHER of the two tables below if your program uses a data collection process that allows you to gather data by cohort or by year. Review with the DEE if you have any questions. Add columns/rows as needed for your PLOs or cohorts. Use tables for as little or as much data as you can organize in this manner. The tables can later be used in your Self-Study. If neither of these tables is applicable, please contact the DEE for alternatives. If you don't use either table, delete them and the accompanying narrative section from your report.

| CHANGE(S) THIS PAST ACAI YEAR? | moved Online | Due to CoViD-19 the in-person residency requirement in the Counselor Education Department- Online CMHC program was moved. After securing approval from CACREP the curriculum was adapted to the online platform. The CMHC program at the Online campus implemented department-generated comprehensive exams. Students have the option to complete their comprehensive exam requirement using the three previously approved exams or the new department-generated test. | | | | |
| RATIONALE FOR CHANGES? | of TCSI require | The in-person residency was moved to an online platform due to safety concerns for the health of the students, faculty and staff of TCSPP. The department-generated comprehensive test allowed students to complete their comprehensive exam requirement during the global pandemic after testing centers, the locations where they typically would otherwise take the exam, were closed as a safety precaution. | | | | |
| EXPECTED RESULTS? | | The goal of the above-listed changes was to facilitate academic stability to allows students the opportunity to maintain academic progress during the pandemic. | | | | |

| | | program in under 1 year. | | (7) 1.S Core faculty course delivery |
| | | , - | | (greater use of adjuncts) |
| | | Comprehensively, all students have graduated the program within 4 | | (greater use or aujuncts) |
| | | graduated the program within 4 | | |

- years, since the first graduating cohort.
- There were 6 closed and completed remediation plans during 2019-2020 out of 332 'adjusted new count' students (1.8%).
- At the completion of all fieldwork courses, each site supervisor is surveyed about the quality of interaction with the university faculty and administration including workflow. These surveys are to ensure the supervisor is not overly taxed and focused on the fieldwork student's site experience. These are measured on three 10-point scales. One was equated to a 'very unsatisfactory' experience score. Ten represented a 'very satisfactory' experience score. The composite score for these questions was a 8.24 during this academic term. Further, non-numeric scores on quality of interaction with interns, faculty, administration, and workflow tasks were consistently positive.

Competency Exam and Graduation:

 Many of the students completing the program during the 2019-2020 academic year were impacted by the CoViD-19 pandemic, beginning Spring 2020, resulted in substantial changes to testing procedures for the required comprehensive exit exam. To meet student needs, we created an equivalent comprehensive examination that

- **(5)** 1.T FTE ratio (exceeds 12:1 due to faculty cutbacks)
- **(6)** 1.W Core Faculty (due to furloughs, layoffs, hiring freezes)
- (8) 1.X Professional identity (due to reduced or no financial support, travel restrictions)
- (1) Practicum & Internship (difficulty in finding appropriate clinical sites)
- (2) 3.H & 3.L Practicum & Internship (providing supervision: in person or distance)
- (3) 3.G & 3.K Practicum & Internship (sufficient activities to meet direct contact requirement)
- (4) 3.5 & 3.U Practicum & Internship (maintaining FTE ratio for supervision: individual & group)
- Department leadership (Department Chair, Associate Chair, Administrative Faculty, and Department Manager) will pilot a sustainable summit protocol during the Spring 2, 2021 residency season. After the pilot, faculty, staff, and students will be sent a satisfaction survey encouraging comments and suggestions. These will be evaluated before a final protocol will be implemented before the Summer 2, 2021 assessment summit. Student success or need of additional support becomes evident during this clinical experience. It will be a

evaluated student knowledge on timely way to relay student each of the CACREP eight required assessment to students quickly domains and our program learning and effectively. outcomes (PLOs). If a student did • The Student Development Plan not pass the examination on the (SDP) committee has developed first attempt, they completed an the behaviorally anchored oral examination. Students who do remediation plans. The not successfully complete the committee will create training comprehensive exam at the second documents to distribute to cycle will not graduate and will be department faculty, staff and placed on an SDP. All students have students. The department will be passed the alternative exam since trained by March 1, 2021. inception with three students requiring an oral exam. Since inception of the alternative comprehensive exam 100% of the students have passed the exam with a total of three (3) retakes requiring oral administration. Prior to CoVid-19 the students who took the Counselor Preparation Comprehensive Exam (CPCE), had a passage rate of 82% (n=33), with 18% n=6) of thirty-nine (39) students requiring a retake. The six (6) students requiring retakes subsequently passed the CPCE or the alternative comprehensive exam offered by the department. AY 2019-20 data was impacted nonequivalent norms and samples, testing frames, and testing conditions. Note: The Alumni Employment Survey
